

# ERIC CHAVEZ

## FULL-STACK DEVELOPER

### FRONT-END

I am dedicated to providing a intuitive and pleasant experience for the user while displaying the company's image in a well-communicated, clean, and positive design.

### SKILLS

- Bootstrap
- Sass
- jQuery
- D3
- Responsive Design
- User Experience
- Communication Skills

### EXPERIENCE

Designed and built a 2D platform browser game with Phaser3 in 2 weeks. Without prior experience with the framework, I deployed a fully functioning videogame level in honor of my brothers birthday.

Play the game here: <https://ericmchavez.github.io/game>

### MAIN INTERESTS

- Gaming
- Coffee
- Foosball
- Music Theory
- Cooking

### CONTACT INFO

<https://github.com/EricMChavez>

### BACK-END

I seek to maintain well written and documented code to optimize the efficiency of the application, while also providing co-coders with an organized and purposeful platform to collaborate.

### SKILLS

- Javascript
- Node.js
- React.js
- Git
- RESTful APIs
- MongoDB
- MySQL
- Problem Solving

### EXPERIENCE

Currently developing a full-scale presentation browser app with a small team. This app involves building an Express API to maintain user data with Amazon's S3 and MongoDB Atlas.
